## Periodicity

Peter Kartsounis' paintings of intervallic patterns draw inspiration from fundamental principles of sequence, linearity and continuity: principles that are embedded in the human psyche and that contribute to our comprehension of time and space, motion and language.

*The grids, visual rhythms or optical effects in my compositions are not pre-planned: they emerge as I engage with the process of extending a small set of principles across a larger field, each canvas a meditation on order achieved through repetition.*
